AMENDMENT (B)

**BOX: Fee Amendment**

Assistant Commissioner for Patents  
Washington, D. C. 20231

Sir:

In response to the official Office Action dated August 30, 2002, please amend the above-captioned application as follows:

IN THE CLAIMS:

Please cancel claims 5 and 6 without prejudice.

Please amend claims 1, 2, 4, and 7-10, and add new claims 13-19 as follows.

1. (Amended) A display assembly with two superposed contrast inversion display devices including a first display device, a second active display device having a double structure, one structure being formed by a first contrast inversion display device provided by a liquid crystal dot matrix display cell or by a digit liquid crystal display cell, the liquid crystals of the one structure being confined in a space delimited by two transparent substrates and having two switching states, and the other structure being formed by a second contrast inversion display device provided by a liquid crystal optical valve, the liquid crystals of the other structure being confined in a space delimited by two transparent substrates and having at least two switching states and control means allowing an appropriate voltage to be selectively applied to the display cell and optionally to all or
